Dear Harold,

Your letters and suggestions are most welcome. Send me whatever clippings you can. I will be glad to send everything I have. Of your friend on Utah Post. Naturally the FBI is not going to allow any of its information out. The matter of whether a civil action in a case can be forced out of them may have to be decided by the Supreme Court. I may need a friend of the court attorney interested enough to file an Amicus Curiae brief for a final ruling. Mitchell Livsey is holding up the criminal prosecution and of course I am fighting big money and political cost so it is a tough battle with little assets. Sometimes though the little people win and any help you can give would be appreciated.

Yes I do need a writer-publicizer for my material. I think your suggestions in this regard are good. I am not opposed to using a liberal publisher as he may be the only one who really understands.

Best regards

Paul
